GEMANCO DESIGN

—wall experience

In queste pagine è semplice ammirare una collezione densa di nuovi stimoli, ispirata ad elementi decorativi, che altro non sono, che l'immaginario di nuove atmosfere. Un pensiero unico capace di mixare forme del passato, dettagli contemporanei del mondo della moda, per un'esplorazione autentica degli spazi. Si tratta di un nuovo percorso estetico e sofisticato che continua a sperimentare ed accogliere stili differenti per individuare immaginari grafici contrapposti tra loro. Una continua evoluzione che riaccende la simbiosi tra uomo e natura.

Accoglie al suo interno nuove scenografie e dà ad ogni pattern una forza esplosiva che la distingue con un tocco eclettico, prerogativa che da qualche anno è il marchio distintivo dell'azienda. Un viaggio multidirezionale in cui si fondono design, moda, architettura. Una commistione naturale senza forzature.

Un'ecletticità che lascia tracce indelebili nelle grafiche della nuova collezione.

La ricerca di una nuova estrema profondità nella composizione, in grado di ampliarsi su grandi superfici, unendo sapientemente toni, macro geometrie, pizzi, matericità, elementi botanici, ornamenti. Il risultato ha un'eleganza quasi primordiale e i soggetti sono preziosi e sofisticati. La grafica è al centro del progetto architettonico, veste lo spazio del vivere contemporaneo, con anima rock e raffinatezze inaspettate, che danno vita ad un contenitore che si arricchirà di mese in mese.

In these pages, you could admire Gemanco Design new collection, it's full of new ideas, it's inspired to decorative elements, consciousness of new mood. A single thought, able to combine shapes of the past, contemporary details of the fashion world, that reach an authentic exploration of the spaces. It comes down to a new aesthetic and sophisticated process, that continues to test and receive different styles to discover graphic images opposite to each other. A constant evolution that switches on the symbiosis between man and nature.

This collection welcomes inside new settings and gives explosive strength to every pattern that sets it apart with an eclectic touch from others. This prerogative is the distinctive business branding in recent years. An all-around journey in which we combine design, fashion and architecture. A natural fusion without forcing.

An eclecticism that leaves tracks in the graphics, inside the new collection. The pursuit of a new very strong sense of depth in the composition, able to expand over large surface areas, keeping skillfully together tones, macro-geometry, lace, materiality, botanical elements and embellishments. The final result has got an almost primordial elegance and its subjects are precious and fancy. The graphic is in the middle of the architectural project, dresses the space of the contemporary living with a rock soul and unexpected refinements, creating a box which will enrich every month.

/ skein

—collection

Di chiara ispirazione maschile, ne mantiene precisione e appropriatezza. Sono i mix di tessuti, i contrasti ma anche le trame ad effetto visivo a definire una grammatica dello stile, giocata sulle contrapposizioni e su un senso di eleganza dinamica e grafica.

This collection is clearly inspired by men, keeping accuracy and appropriateness. The fabric combinations, the oppositions but also the visual effect textures set a grammar of the style, played on juxtapositions and feeling of graphic and dynamic elegance.

Celebra le virtù e i valori della cultura greca attraverso una dimensione individuale e intima lasciando spazio ad una sorta di introspezione sentimentale. Equilibrio ed eleganza si perfezionano nella scomposizione del cosiddetto canone classico.
Si rompe il principio matematico, si alterano dimensioni e si ricompono di nuove prospettive.

This collection celebrates Greek culture virtues and values through an individual and close dimension, leaving room for a sort of an emotional insight. Balance and elegance perfect themselves in the breakdown of so-called traditional canon.
The mathematical principle gets broken, the dimensions are altered and it comes together again, generating new perspectives.

Frutti, foglie e fiori sono modellati come piccole sculture, alcuni punteggiati da pietre preziose che esaltano il loro tono acceso, altri illuminati da texture metalliche che donano tridimensionalità alla superficie, nobilitando le nuove creazioni dal design unico e personalizzato.

Fruits, leaves and flowers are shaped like small sculptures, some are dotted by gemstones that enhance their more vibrant tone, others are illuminate by metallic textures restoring three-dimensionality to the surface, ennobling the new creations, characterized by unique and customized design.

SILVAPOLIS è wild-chic e promette di conquistare gli spazi dell'abitare. Un viaggio nel tempo - tra architettura urbana, cultura, civiltà e natura selvaggia - pensato per ricreare relazioni libere da vincoli, spontanee e naturali.

Un viaggio free-style per chi sogna di vivere il proprio angolo immerso in fantasie esotiche.

SILVAPOLIS is wild-chic and it's going to break into the living spaces. A journey through time, among urban architecture, culture, society and wild nature, thought to create natural and spontaneous relationships free from constraints.

A freestyle journey, created for anyone who dreams to live his own corner surrounded by exotic fantasies.

La magia lascia sempre una traccia e diventa uno straordinario pezzo d'arte. Ogni linea è enfatizzata nelle intersezioni, da dettagli tutti da scoprire. Si delineano forme e cromatismi tessendo narrazioni di stile, di eleganza e raffinatezza. Le nostre creazioni trasformano le linee sinuose in straordinari capolavori. Pezzi unici dalle espressioni intrepide e distinte di stile e personalità uniche.

The magic always leaves and becomes an amazing piece of art. Every line is emphasized in the intersections by details, all to be discovered.

By weaving together stories of style, elegance and refinement, shapes and colours are outlined. Gemanco design creations turn sinuous line into magnificent masterpieces. One-off pieces marked by fearless and distinctive expressions of unique style and personality.

CHI SIAMO

ABOUT US

IT Gemanco Design nasce con l'obiettivo di offrire prodotti innovativi per la personalizzazione di spazi abitativi o commerciali:
• mosaici in resina
• carta da parati personalizzata
• decorazioni con stampa UV su materiali di varia natura.
L'azienda realizza prodotti su misura. Non possiede scorte di magazzino e lavora solo su progetti singoli soddisfacendo qualsiasi richiesta.

Un'azienda giovane,
un marchio,
un progetto ambizioso,
un'officina di idee.
Nel nostro digitalstyle convergono creazioni visionarie dalla forte autenticità.
Il risultato?
Una tela di emozioni che trasforma le superfici in complementi di design d'avanguardia.
La produzione è interna in tutte le sue fasi: dalla progettazione delle grafiche, ideate da un network di designers e progettisti altamente qualificati, alla stampa delle stesse con avanzate tecnologie digitali.

EN Gemanco Design was born with the aim of providing innovative products for living and commercial spaces such as:
• resin mosaics
• UV printed decorations on diverse supports
• custom-made wallpapers.
The Apulian company produce tailor-made items and don't sell from stock. They work only on demand and meet your needs and desires.

Gemanco Design is a young company, a brand, a challenging project, a workshop of ideas. In our digitalstyle, visionary creations, characterized by a strong authenticity, come together. What is the final result? A canvas of emotions which turns the surfaces into avant-garde design accessories. All phases of production are carried out internally: from the creation of graphics, conceived by a network of designers and artists, to the printing of paper using advanced digital technologies.

INFORMAZIONI TECNICHE
/technical details
Mosaic - Wallpaper - UV Printing

MOSAICO MOSAIC

/ PRODOTTO IN ITALIA

/ PERSONALIZZABILE AL 100%

Qualsiasi immagine digitale può essere riprodotta sotto forma di mosaico. Anche la forma e la dimensione del singolo tassello di mosaico possono essere scelti dal cliente. Si ha la libertà di creare ogni tipo di pattern e si può persino scegliere la distanza fra un tassello e l'altro. Il mosaico può essere realizzato anche su superfici di colore oro, argento e trasparente. La resina è, per sua natura, lucida ma è possibile anche realizzare il mosaico con finitura opaca.

/ SOTTILE E LEGGERO

Il mosaico in resina ha 2/3 mm di spessore ed è molto leggero. Essendo solo 1,2 kg per metro quadrato, può essere applicato anche su supporti che non possono sostenere rivestimenti pesanti come pareti di cartongesso o controsoffitti.

/ FLESSIBILE

Il mosaico in resina è flessibile abbastanza da potersi adattare a superfici concave o convesse, seguire curve, e aree irregolari e si può facilmente applicare intorno agli angoli.

/ VERSATILE

Il mosaico in resina ha molteplici applicazioni: oltre ad essere un rivestimento per bagni, cucine, piscine, spa, hammam e facciate esterne di palazzi, esso può essere utilizzato per impreziosire testate di letti, sedie, tavoli e mobili in genere, decorare soffitti, specchi, cornici, finestre o addirittura creare illuminazioni particolari.

/ MADE IN ITALY

/ 100% CUSTOMISABLE

Any digital image can be converted into a mosaic. You can even choose the shape and the dimension of the tesserae and the space between them. You have the freedom to create any pattern you desire. Gemanco Design resin mosaic can also be produced on golden, silver or transparent surfaces. Resin is glossy by nature, but the product can also be provided with a matte finish.

/ THIN AND LIGHT

Resin mosaic thin (only 2/3 mm thickness) and very light. It only weights 1,2 kg per square meter and it can be applied to supports that cannot stand heavy claddings.

/ FLEXIBLE

Resin mosaics flexible enough to be applied to curved, concave, convex, irregular surfaces and sharp edges.

/ EXTREMELY VERSATILE

The use of resin mosaic is not limited to the coating of bathrooms, hammams, spas, swimming pools and buildings facades, but it can be used in multiple ways. For example it can embellish headboards, chairs, tables and pieces of furniture in general, adorn ceilings, mirrors, frames, windows and even create special effects if applied to spot lightings.

/ SEMPLICE DA APPLICARE

Il mosaico in resina può essere applicato in maniera semplice e pulita su qualsiasi tipo di supporto: pareti, soffitti, mobili, porte, finestre, specchi, pannelli in legno o MDF e persino su vecchie piastrelle senza bisogno di rimuoverle. Viene generalmente fornito secondo le esatte dimensioni richieste dal cliente ma, se necessario, lo si può tagliare e mettere a misura con l'ausilio di semplici forbici.

/ AUTOADESIVO

Grazie al suo strato autoadesivo, il mosaico in resina può essere applicato su qualsiasi superficie non muraria senza aver bisogno di colla o materiale fugante.

/ RESISTENTE AGLI UV

Il mosaico in resina può essere anche usato all'esterno senza alcun rischio per la resistenza dei colori che sono inglobati sotto alla resina. Completamente affidabile in qualsiasi condizione atmosferica è resistente anche agli shock termici.

/ EASY TO APPLY

Resin mosaic can be very simply and quickly placed to any surface: walls, ceilings, pieces of furnitures, doors, windows, mirrors, wooden panels or MDF, forex and even on top of old tiles with no need to removing them. It is normally provided with the exact measurements required but, if necessary, you can simply cut the pieces with scissors.

/ SELF-ADHESIVE

Thanks to a self-adhesive layer, resin mosaic can be applied to any nonwalled surfaces without the need of glue and grouting materials.

/ UV RESISTANT

Resin mosaic can be also used outside keeping the colors bright and intense since they are protected by the resin. Completely reliable in any weather condition, it can also resist to thermal shocks.

CARTA DA PARATI WALLPAPER

IT Qualsiasi immagine fotografica o pittorica può essere riprodotta in formato digitale e convertita in pareti sorprendenti.

Gemanco Design produce carta da parati su misura per qualsiasi esigenza. Le immagini possono essere della collezione Gemanco Design o fornite direttamente dal cliente.

La carta da parati Gemanco Design in TNT è disponibile in tre diverse finiture, Canvas, Sandblast e Jaquard, tutte vellutate al tatto e caratterizzate dallo stesso peso di 240 g/mq ed è fornita di certificazione di ignifugicità M1. Oltre alle carte in TNT, è disponibile una linea di carte "materiche" con base in TNT e spalmatura in PVC: Decodrift, Decoline e Decoleather che sono classificate C-s2, do class per la resistenza al fuoco e pesano 265g/mq.

Gemanco Design ha inserito la Sandpaper una nuova carta da parati coatizzata in PVC da 295 gr/mq, con una buona resistenza ai graffi e certificazione europea di resistenza al fuoco EN 13501 e B1. Per rendere la gamma delle carte da parati ancora più innovativa, Gemanco Design ha unito al tradizionale anche la carta da parati FONOASSORBENTE e la carta in FIBRA DI VETRO. La carta da parati FONOASSORBENTE dall'effetto 3D (con superficie tridimensionale da 5 millimetri) e fornita con certificazione di resistenza al fuoco EN13501, è 100% tessuto Trevira coatizzato da 300 gr/mq. La carta da parati in FIBRA DI VETRO invece è in tessuto in fibra di vetro da 200 g/mq ed è fornita con certificazione europea di resistenza al fuoco EN15102.

EN Any photographic or painting image can be printed in digital format and then converted into splendid wallpapers. Gemanco Design produce wallpapers on demand for all tastes. The images can be either selected from Gemanco Design collection or furnished by the costumer.

Gemanco Design TNT wallpapers are certified by M1 as fireresistant and are featured by three different textures - Canvas, Sandblast and Jacquard - weighing 240 g / sq.m. In addiction to TNT wallpapers, a line of "materic" wallpapers with TNT base and PVC coating is available: Decodrift, Decoline and Decoleather. All of them certified C-s2, do class for the fire-resistance and weighing 265 g / sq.m.

Gemanco Design has introduced a new product: Sandpaper, a new PVC wallpaper of 295 gr/m², scratchresistant and Euroclass E fire resistant (EN 13501-1).

The novelties do not end here: together with the conventional wallpaper, Gemanco Design inserted other two special wallpapers, to make more innovative its wallpaper range. The 3D soundproofing wallpaper consists of 5 mm three-dimensional surface, 100 % textile of 300 gr/m², Euroclass E fire resistant (EN 13501-1). The fiberglass wallpaper consists of fiberglass textile of 200 gr/m², Euroclass E fire resistant (EN 13501-1).

SCHEMA DI MONTAGGIO

ARRANGEMENT

**INFORMAZIONI TECNICHE**

TECHNICAL

IT Le carte da parati di Gemanco Design possono essere lavate con acqua calda e sapone avvalendosi di una spugna morbida. Le grafiche stampate sono molto resistenti ai graffi e alle abrasioni. Solitamente sono fornite con 5 centimetri in eccesso in altezza e 5 cm in larghezza. Le strisce sono numerate e fornite di uno schema di montaggio (uno schema specifico per ciascun progetto).

EN Gemanco Design wallpapers can be washed with a soft sponge, hot water and delicate soap. The printed graphics are scratch and abrasionresistant. Usually they come in excess 5 cm both in length and width. The strips are numbered and organised following an installation chart (a specific pattern for each project).

WPS

WATER PROOF system

IT Gemanco Design cerca sempre nuove soluzioni per innovare il design dei tuoi ambienti. Sono disponibili i nuovi prodotti WPS - WaterProof System, che permetteranno di impermeabilizzare le tue pareti rivestite con carta da parati, combinando in un unico sistema, la funzione di impermeabilizzazione con l'alto valore decorativo dei rivestimenti. Questi sono prodotti specifici per ambienti umidi quali bagni, centri benessere, spa, palestre e pareti a diretto contatto con l'acqua come l'interno di una doccia, ed inoltre, per questo motivo, altamente indicati per la finitura su carta da parati applicata per rivestimenti esterni.

Il prodotto non altera la texture della carta da parati scelta, anzi ne esalta le caratteristiche; infatti è possibile sceglierla nelle due varianti lucido ed opaco. I prodotti WPS sono una finitura bicomponente trasparente, spatalabile, per pareti; va applicata una volta che la carta è stata installata e la colla asciugata del tutto. È resistente a tutti i prodotti di pulizia domestica, ad abrasioni ed eventuale ingiallimento.

EN

Gemanco Design is constantly looking for new solutions to improve interior design. The WPS - WaterProof System products are available to waterproof walls covered with wallpaper, by combining into a single system, waterproofing and decorative coatings. WPS - WaterProof System products are specific for personalizing and waterproofing wet environments such as toilets, wellness centres, spas, gyms, showers, baths, and for this reason, highly indicated for external coatings. The product doesn't change the wallpaper texture chosen, but enhances the features of the range. You can choose between the gloss and matt finish. Gemanco WPS products are transparent and fibre-reinforced. They can be set, once the wallpaper has been placed and after the adhesive has dried. The surface is resistant to all cleaning products, scratches, abrasions and yellowing.

CARTA DA PARATI & MOSAICO WALLPAPER & RESIN

IT Gemanco Design, sempre alla ricerca di soluzioni innovative per il decoro di interni, ha introdotto nella sua linea di prodotti un'ulteriore novità: la carta da parati con applicazioni di resina, coniugando il classico rivestimento in TNT con la tecnologia della resinatura. Gli elementi in resina applicati sulla carta da parati creano all'interno dello stesso soggetto grafico, un suggestivo effetto tridimensionale, determinando anche una variazione dell'intensità del colore e un effetto lucido/opaco dato dai due differenti materiali accostati fra loro.

EN Gemanco Design is continuously looking for innovative decorative solutions and has introduced among its line of product a novelty: the wallpaper with resin applications, combining the classic TNT coating with the resin technology. The resin elements applied on the wallpaper create - within the same graphic subject - a striking tridimensional effect which is also determined by the variation of the color intensity and by the shining and matt effect given by the two different materials matched to each other.

DECORAZIONE CON STAMPA UV

UV PRINTING DECORATION

IT Qualsiasi materiale può essere stampato grazie alla speciale tecnica di stampa UV (Ultra Violetti). Piastrelle di ceramica o marmo, gres porcellanato o superfici in legno, MDF o forex, vetro o plexiglass, pelle o stoffa, alluminio o acciaio o qualsiasi altro materiale.

La stampa UV della Gemanco Design è di altissima qualità. I disegni possono anche essere stampati a rilievo per creare uno straordinario effetto tattile tale da essere usati anche per scopi speciali (es., per stampa di testi in Braille). Con la tecnologia UV l'inchiostro polimerizza immediatamente e si asciuga istantaneamente.

In questo modo, i colori sono più nitidi e durano più a lungo. Inoltre, la stampa UV è ecologica in quanto utilizza inchiostri che non contengono sostanze chimiche o tossiche.

La superficie decorata viene finita con uno strato protettivo che rende la decorazione resistente ai graffi e ai prodotti per la pulizia. Il piatto di stampa misura H300xL160 cm. L'altezza massima delle superfici stampabili è di 21 cm.

EN Any material can be printed thanks to the special printing UV (Ultra Violet) technique. Ceramic, marble, porcelain tiles, wooden surfaces, MDF, forex, glass and plexiglass, leather or fabric, aluminum or steel or and any other material can be adorned with UV printing.

Gemanco Design printing provides high quality results and produces also relief designs creating an extraordinary tactile effect that can be used for special purposes, i.e., for printing of texts in Braille. With UV technology the ink polymerizes instantly and dries up quickly - the colours are bright and long lasting -. UV printing is eco friendly as the ink used are chemical-free and non toxic.

The decorated surface is finished with a protective layer making the decoration resistant to scratches and to cleaning products. The printing plan is 300x160 cm and the printable surface cab be max 21 cm high.
