The Gemanco Design's values highlight:

- Constant experimentation to propose on the market even more innovative products;*
- Market trends study to create always new graphic concept, they should meet all the customers needs, also most complicated ones;*
- Continuing interest in HR training.*

R E S I N M O S A I C

Our innovative RESIN MOSAIC was created by the merger of digital printing and transparent resin. Any digital image can be converted into a mosaic. You can even choose the its shape and dimensions.

It's very lightweight (1,2 kg per square meter). It can be applied to supports that cannot stand heavy claddings (for example plasterboard walls and suspended ceilings). Moreover, it is suitable for curved, concave, covex and sinuous shapes.

Resin mosaic is the ideal material for fast restructuring: it's 2mm thick and it can be very simply and quickly placed to any surface, even on top of old tiles with no need to removing them. It can become an important tool for designers and an help to change the look of a façade "indoor or outdoor" or a swimming pool.

W Hotel - Muscat, Oman - Irregular mosaic on Silver pvc. Graphic design customized.

Pacific Social Restaurant - San Diego, California - Regular mosaic on white pvc. Graphic design customized by Customer.

Wallpaper designed to **BDNY** 2019.
Printed on Decoline wallpaper
support (concrete-effect).
2020 Capsule Collection.

W A L L P A P E R

Any photographic or painting image can be printed in digital format and then converted into wonderful wallpapers. It is suitable for any kind of environment “Indoor and outdoor”.

Gemanco Design wallpaper is 100% customizable, it's realized on demand for all tastes. Wallpaper has got slightly granular thickness and consistency, as if it were printed directly on the wall.

It's tailor-made and, to avoid any material wastage, the exact size required is already cut and ready for use.

Gemanco Design wallpaper can become waterproof, thanks to our **WPS** products (WaterProof System), ideal for wet environment and outdoor.

WALLPAPER & RESIN

The match between two technologies, resin mosaic + wallpaper, creates a perfect balance to highlight stylish and unique environments.

The overlapping of these elements gives you back three-dimensional levels, able to handle surfaces, we will take part on. The result will be a graphic, optical and tactile interweaving with an amazing impact.

Wallpaper and Resin designed to “**BDNY 2019**”, printed on *Sandblast wallpaper support*.
2020 Capsule Collection.

S T A M P A U V

Any material can be printed thanks to the special printing UV (Ultra Violet) technique. This technology associates to optical effect, tactile one. The employed inks are chemical-free and non-toxic, so UV printing is eco-friendly.

The maximum printing size is cm 160x300.

UV Printing decorations on wooden surfaces 3cm thick. Realized for a private loft. 2018 Capsule Collection

UV Printing decorations on wardrobe doors Realized for a private loft - 2018 Capsule Collection

SUPERMERCADO NACIONAL PUNTA CANA

Gemanco Design Resin Mosaic lands in Dominican Republic! Chosen, and then installed in the new store of Supermercado Nacional, located near to Casa Cuesta, on Boulevard Turístico del Este, Punta Cana proposes itself as a lab, open to new experiences, to improve the complete perception of designing space. Hence, the architectonic choice, which tributes to the traditional features of the Dominican houses, that lend natural energy to the space and complete their essence.

This choice is supported by usage of traditional materials and, at the same time, innovative technologies, in comparison.

Gemanco Design resin mosaic is a certified product, it is compliant with current standards, in terms of food safety, with due regards for local hygiene and health measures.

Gemanco Design, with its made in Italy resin mosaic, characterizes, with absolutely “recognizable” elements the design of the location, that becomes a format to differentiate all the food distribution departments.

Resin mosaic becomes protagonist of the designing space with its 2mm thick and 1.2 kgs by sqm.

Three patterns employed and five different graphic designs “Carrara Marble, Nero Marquina Marble, Blue nuanced Lozenges”. This product is completely customizable and responds to the customer demands and needs. It creates an unique visual effect.
